

Heanjia Super-Metals Co., Ltd

Hastelloy G-30 Mesh

Woven Hastelloy G-30 Mesh

Perforated Hastelloy G-30 Metal

Expanded Hastelloy G-30 Metal

Sintered Hastelloy G-30 Metal

Hastelloy G-30 mesh is made for use in the extremely severe chemical filtration applications such as acid, alkali and salt filters, baskets, strainers, sieves, separators and more. Heanjia Super-Metals produce alloy G-30 mesh in high precision and is available in the rolls, cut pieces and customized sizes.

Hastelloy G-30 Mesh is made in the various styles:

- **Hastelloy G-30 Wire Mesh**
- **Hastelloy G-30 Expanded Metal**
- **Hastelloy G-30 Perforated Metal**
- **Hastelloy G-30 Sintered Mesh**

Hastelloy G-30 Mesh Applications

Catalyst support screens	Waste processing units	Architecture
High temperature Support screens	Chemical filters	Acid handling units

Hastelloy G-30 Mesh Filters-Available in any size and shape

Hastelloy G-30 Mesh Specifications

Wire		Retention		Width		Weavin g	Weight
(warp)	(weft)	(warp)	(weft)				
13,0	250,0	0,24 mm	0,22 mm	0,1210 mm	1240 mm	twilled	3,21 kg/m ²)
20,0	260,0	0,25 mm	0,19 mm	0,1180 mm	1250 mm	twilled	2,66 kg/m ²)
