

Electroformed Nickel Mesh For Electrode

Electroformed nickel mesh attributes extremely small hole diameters with accurate tolerance. Smooth surface that superiorly cleans and eliminates particle collection. It offers excellent aperture, specification, consistency, shape, capability and small defect rates.

Our electroformed nickel mesh can also be custom manufactured for individual requirements for hole size, thickness and is produced with edges.

Electroformed Nickel Mesh For Electrode Specification

Aperture	Thickness	Wire dia	Wires/inch	Open area	Purity
0.11 mm	0.004mm	0.005 mm	1500	44 %	99.9 %
0.04 mm	0.006 mm	0.011 mm	500	60 %	99.9 %
0.064 mm	0.004 mm	0.0125 mm	333	70 %	99.9 %
0.13 mm	0.025 mm	0.1 mm	100	50 %	99.9 %
0.2 mm	0.004 mm	0.0125 mm	118	88 %	99.9 %
0.04 mm	0.004 mm	0.011 mm	500	60 %	99.9 %
0.34 mm	0.025 mm	0.041 mm	70	83 %	99.9 %
0.43 mm	0.004 mm	0.067 mm	51	75 %	99.9 %
