

Fence For High Temperature

Our high temperature fence is a durable mesh that is fabricated by special techniques. It is lightweight, strong, flexible and easily installable and needs minimum maintenance. Every designer can handle it.

High temperature fence properties

1. Acid resistant
2. Corrosion resistant
3. High temperature heat resistant
4. Deformation free
5. Durable

Applications

Mining, Furnaces, Chemical processing, food processing, petroleum, metallurgy and other high temperature fields
